

Spring Treats

by Angie

William enjoyed his beer and enjoyed making it. Although no excuse was needed to experiment, he decided that the end of winter and the upcoming spring equinox were suitable reasons to introduce a special bock.

Catherine happily supplied a basketful of cheeses and fruit as her contribution. With William's marvelous bread, the tunnel community had a merry luncheon, especially when Father declared the afternoon a holiday. Everyone voted that William should make bock a tradition.

Back in Vincent's chamber Catherine, humming Vivaldi, handed him two treasures.

Her humming ended when he drew her into a hug and thanked her deliciously.
