

# A Beauty and the Beast Tidbit (100 words)

by Angie

## **Beautiful**

Beautiful. Catherine called him that, and he had to believe it. His tunnel family respected him, loved him even, but no one had ever called him beautiful. Then Catherine had whispered that word to him, gazing into his eyes, holding his hands in her own.

It changed everything, humbled him. It warmed a hidden place deep inside - the place where his dreams for a different life resided.

Now they must move forward in love, to whatever would come. He could not deny the need.

Vincent sighed happily. In the face of her love he could dream as never before.
