

B&B Tidbit (100 words)

by Ulrike

Breathtaking

Dear Catherine and Vincent,

Yesterday I flew from Belfast to Reykjavik. My flight arrived late in Keflavik, so the pilot circled over Faroe Island, giving us the chance of a lifetime to be part of a stunningly beautiful natural spectacle, a solar eclipse. We flew through the clouds, and then at 36,089 ft (11.000m), we saw the moon's shadow and the sun's corona. Absolutely breathtaking and indescribable! Attached are some photos I took.

Lots of love,

Bridget

Catherine lowered the letter and together they looked at the photos. Then they smiled at each other. Brigit was correct. Absolutely breathtaking indeed.
