

Beauty and the Beast Dream Keeper's Index 2025

Beauty and the Beast Dream Keeper's Index 2025

The following is an index of authors, poets, songwriters and artists who have lovingly kept the ***Beauty and the Beast*** dream alive for the last thirty-eight years. If we have forgotten anyone, please let us know, so that we can include them on future updated lists.

We would like to especially thank those (most of which are anonymous) who have carefully preserved and chronicled the vast collection from the dream keepers over the years, so that it wouldn't be lost to those of us who came later.

Some people may appear on these lists more than once because they either used more than one version of their name or they may have also written under a pen name.

Some multi-talented people also appear on both the Author Index and the Artist Index, and the Video Content Creators Index.

The information in this index was gleaned from:
