

Instructions for printable half-sized books (5" X 8") produced by The Treasure Chambers.

All books are to be printed both sides on letter-sized paper (2-up), meaning that each sheet of paper will have four half-sized pages, two pages per side, portrait-orientation.

Print the book pages in the order presented and place the first side down, then the others, in order, on top.

All books are designed to be folded in half after printing, then stapled with a standard stapler close to the fold. A longer stapler will allow them to be saddle-stitched through the spine from the outside to the inner spine. The book pdf files may be taken to a printer for professional printing and stapling.

Some books will have blank pages at the end. This is to ensure that there are four pages per sheet, and the page count is correct.

Number of sheets of standard letter-sized paper needed for each book is as follows:

Beauty and the Yeast - 9 pages (18 sides)

Dreams of Long Ago - 13 pages (26 sides)

The Absurd Season - 8 pages (16 sides)

The Beast of Times - 15 pages (30 sides)

Love Bade Me Welcome (Novel) - 106 pages (53 sides)

Note: Because of its thickness, this book will need a heavy-duty stapler.
