

# Tall Tale

by Angie

“Hi Bro,

Went to Switzerland somewhere along the way and had to buy this.

Its gotta have a story, so here’s my take.

See that cow? It got tired of having its cud chewing disturbed and kicked the two guys in their oversized pipes, which bent and hit them in the right (left?) eye. The third guy can’t stop laughing. His buddy whacks him, so he matches the others. He waves his flag for help, but because of the sour notes, all they get are chocolate turds and plastic flowers thrown at them.”

Vincent laughed until his stomach hurt - quietly.
